FUN FACT

I was a camper for five years and worked at family camp on program crew for a summer in high school. I have my captain's license and am a part-time fishing guide in Galveston, TX.

MOST EXCITED FOR

After not being at camp for a long time, my friends recently reached out to me to see about coming back. I start work in the fall of 2026, and I thought this would be a great thing to do before work. I love this place and remember all the fun times I had when I was a camper, and I want to come back to this special place before I start work.

FUN FACT

My dad was a camper since cabin 4 (hills) until he was a counselor, and my mom's first year at camp was work crew and she met my dad her next year as a counselor. Thus, I was six weeks old the first time I came to camp and I've been a camper and on PC every year since I then.

MOST EXCITED FOR

I am most excited to experience the change that I felt last year as I transitioned from a camper to PC boy again as I move to a lower leadership role that is responsible for the fun and safety. I know how valuable a good counselor is to every kids camp experience.
