Teacher and homemaker

FUN FACT

I go on an hour-long walk every evening and couldn't go a day without spending some time in the sun with the birds chirping and the cicadas singing around me. I love to read, I journal every night to document my life and my thoughts, and I like trying new recipes in the kitchen!

MOST EXCITED FOR

I can't wait to have the bonds between my co's that everyone always talks about, and I want to do the most with my fleeting summers of youth, but most of all I am praying to have an influence on some camper's heart. Whether that influence is through being silly and dancing in the river together or talking to and praying alongside them when something's weighing on their heart, I want the joy and care that the Lord has given me to overflow somehow into another's cup.
